

## MERRY CHRISTMAS AND HAPPY NEW YEAR

### MAINSTREAMS' MEMBERSHIP DRIVE JANUARY 2020

Since 2004, Mainstreams has taught 1,000's of Kootenay students about water ecology.  
We need a membership to expand our fund raising efforts.

Who cares most about Mainstreams educational programs? Teachers, of course!

**So, beginning in January 2020, teachers need to be members of Mainstreams to book programs.**

**There is no cost to become a member** - all it takes is completing a simple membership form, which is available on our website [mainstreams.ca](http://mainstreams.ca) or as a second file in the message bringing you this newsletter.

Mainstreams works with volunteers to do riparian restoration projects, watershed assessments, and control of invasive plants. **Public membership is also very important to Mainstreams, please consider joining.**

#### Benefits of being a Mainstreams member:

1. Able to book Mainstreams' 9-school programs
2. Opportunity to build connections so we can all stay in tune
3. An easy way to provide on-going feedback
4. Able to keep up-to-date on program changes and opportunities
5. Your membership helps our fund raising so we won't disappear
6. A chance to serve as a Board member to shape and secure Mainstream's future
